August 12, 2019

The custody of John of God was granted on false information, it was discovered today with the breach of the confidentiality of the process, this Monday (12/8)

The judge of Abadiânia was misled to arrest medium. One of the reports from the Financial Activities Control Board (Coaf) used to support one of the mediums of João de Deus preventive contained false information. The redemption request form was requested by his wife, who managed one of his Itaú accounts and had a public power of attorney. Neither John of God nor his wife signed the document.

Exclusive: The G24H learns that Joao de Deus's defense attorneys will go to court with a millionaire compensation claim against Banco Itaú for the false information that left the medium in jail.

In the process, which had secrecy raised on Monday (12/8), there is a communication made by the bank Itaú to Coaf for an "atypical movement", after there was a request for redemption of applications of \$ 35 million in the accounts of the medium.

In July, an injunction imposed on Itaú the obligation to cancel false information in Coaf. In the decision, the magistrate understood that it was not "verified the movement of resources or transactions that informed and no dispensation of valuable prerogatives, being undisputed that there was no redemption or request for redemption of reported amounts".

### **(EXCLUSIVE) Daughter of John of God says: "The mountain gave birth to a mouse"**

August 13, 2019

"The mountain gave birth to a rat," said Cynthia Shult de Faria, daughter of João de Deus, 8 months after the arrest of the medium, exclusively to the G24H. After this period, it is clear that there was an exaggeration of the MP task force, which is past time to be undone, since it no longer justifies its work.

Exaggerations of the prosecution are a matter throughout Brazil and Goiás is no different. The MP-GO task force in the João de Deus case, for example, said at the beginning of the investigations that it had over 600 reports of abuse against the medium.

Tomorrow, they are 8 months into prison and only 45 complaints, not all consistent, showed up, with hard work and effort, which shows that prosecutors were betting high, but failed to substantiate most cases.

That's why his daughter lets off steam.

Daughter of João de Deus denounces NGO for forcing victims to receive compensation  
August 14, 2019

Daughter of John of God Cynthia Shult de Faria says: "Why didn't the prosecution task force investigate the United Victims NGO that clearly said it had more than 600 victims of John of God?"

Of course, the NGO's intention was to create, the more victims, the more compensation money that would end up in this criminal organization's accounts, as it represents these false victims.

The court acknowledged that the report presented by the Financial Activities Control Board (Coaf) and used to substantiate one of the preventive arrests of the medium John of God was false.

The document concerns a bank transaction - considered atypical by Coaf - carried out in one of the medium's accounts. From this, the prosecutor of Goiás (MP-GO) was notified and interpreted that the medium could withdraw money from the bank to flee the country.

However, the redemption request form was informally requested by João Teixeira's wife, who legally managed one of her bank accounts. However, the wife would have given up even before signing any formal request. In other words, João de Deus or his wife did not sign any document or returned to the bank to proceed with the redemption procedure.

In view of this, the defense of the medium argues that João Teixeira was accused on the basis of "the opinions that brought the Public Prosecutor and the Judiciary in a chasm of errors that is yielding, until now, almost 240 days in prison and the complete deterioration of the prison. state of health of John of God".

Regarding the health of the medium, the defense also argues that João de Deus suffered, this year, "more than ten falls in the prison unit, a situation that, if persistent, will inevitably lead to his death."

The note, signed by attorney Anderson Van Gualberto de Mendonça, also says that the court ruling "corrects the grotesque error and recognizes this illegality based on lies." "The Abadiânia District Judge was misled, which led to the arrest warrant being issued on the grounds that a possible escape occurred. For the defense is yet another face illegal and arbitrary arrest that is being revealed," he said.

Remember that in July, an injunction imposed on the bank the obligation to cancel the information. In the decision, the judge found that there was no movement of funds or transactions being "inconsistent that there was no redemption or request for redemption of reported values".

# **“They accused my client of 'achisms' in an abyss of errors,” says João de Deus lawyer**

August 14, 2019

“They accused my client of 'achisms', who dragged the prosecution and the judiciary into a chasm of errors that is yielding up to 240 days in prison and the complete deterioration of João de Deus's health so far. . He has suffered more than 10 falls in the prison this past month, a situation that, if persistent, will inevitably lead to his death, ”João de Deus lawyer Anderson Van Gualberto de Mendonça told Mais Goiás.

## **22 August 2019**

Sabrina Bittencourt found guilty in court of fabricating the 600 victims and "baby farm" lies and is ordered to post redactions on social media and pay a fine of R \$30,000. Great News for John of God, it is now coming out that this was all a setup and how cruelly he was set up. He is not out yet but with these many new court findings we hope he will be found innocent soon:

From the Brazilian Press: Back in late December, a Brazilian woman who goes by various names, including Sabrina Bittencourt, Sabrina de Campos Thiesen, and other names, made a video accusing John of God of running a child trafficking "baby farm" and depicting him as a monster. She also accused us Casa guides of taking these children out of Brazil to the U.S., Australia, etc., and aiding of the "sale" of these children for adoption.

The video was shown on several facebook pages and youtube. It hit the mainstream media and added to the international "scandal appeal" that is too often circulated in the media. In addition, she and Maria do Carmo dos Santos, the president of Vitimas Unidas (which I already mentioned) not only fanned this fire, but Maria aimed a vicious campaign of videos and facebook posts against various Casa administrators and local pousada and hotel owners, accusing them of being complicit in the whole mess. In particular, they attacked Chico Lobo, the Casa administrator who, after a lengthy period of hospitalization, finally succumbed to a lung infection on July 4th, and passed away to the sorrow of his family and many friends.

In mid-July, a member of Chico Lobo's family sued Sabrina, Maria, Brazilian online Facebook, and some Brazilian "Radio and Televisão" company for false allegations and resultant "moral damages." The case was won and now requires the publication of retraction in the social networks of the defendants; condemnation of Maria do Carmo dos Santos to the payment of indemnity for moral damages in the amount of R \$ 30,000 (thirty thousand reais); conviction of Sabrina de Campos Thiesen in the amount of thirty thousand reais (R \$ 30,000.00) as moral damages; the condemnation of the requested Rádio e Televisão Record SA to pay R \$ 40,000.00 (forty thousand reais) as moral damages.

After creating the horrible video, etc., when confronted by Brazilian journalist Paulo Pavesi demanding that Sabrina provide proof/documents/etc. of this supposed "baby farm," Sabrina immediately and conveniently "committed suicide" for the THIRD TIME that we know of, and thus never provided the proof, the multitude of documents she professed to have!!! She has done this before (fake suicides), disappeared, and then resurfaced under another name. Apparently, she was located for this legal

process, and from what I understand the Lobo family is involved in additional legal suits against Maria, Sabrina and another VU colleague.

Unfortunately, none of these small to larger positive reports are being shown in the Brazilian mainstream media. And it was from their mainstream media that the international press initially picked up the various scandalous articles, so most of the world is still left with the wrong impressions of these issues.
